CREATING A HEALTHY ENVIRONMENT

Greenery Office Interiors Ltd. recently returned from San Diego, California with two International Awards. Greenery was recognized by PIA (Plantscape Industry Alliance) with Awards of Excellence for “The Winter Garden” and the “Living Wall” at Jamieson Place.

Jamieson Place, which is located at 308-4th Ave SW opened its doors in April, 2010 and the Winter Garden is located on the Plus 15 level of this stunning building designed by Chito Pabustan of Gibbs Gage Architects.

The 22,000 sq ft space, called the Winter Garden, was created to be a contemplative and restful gallery type space in a modern and minimalist style combining art, sculpture, water, and lots of green including a Living Wall.

The Living wall, which is 1950 sq ft , consists of over 20,000 plants with over 20 varieties, is the largest Interior Living Wall in Canada.

Greenery Office Interiors Ltd adds this award to others collected in the past few years for the Sheraton Eau Claire Suites, Fluor Canada, the Hyatt Regency Hotel and the Nexen Atrium.

In addition to this award, owner, Joanne Young was recently featured in an industry wide teleseminar on the Living Wall and next month she will be a featured speaker at Expo 2010 for Landscape Ontario in Toronto.

Greenery Office Interiors Ltd. has been operating in Calgary since 1977, specializes in Plant Design and Management and at this time of year, they are preparing for poinsettias, customized holiday décor as well as Christmas tree rentals for their corporate clients.
