

November 14, 2005.

Greenery Office Interiors Ltd. recently returned from a conference in Las Vegas, Nevada with another award. Greenery was recognized by PIA (Plantscape Industry Alliance) for the Nexen Atrium Renovation.

The Nexen Atrium, one of the oldest atriums in Calgary, was given a new lease on life by the addition of a new and interesting plants and design and a severe clearing of old and bug infested material.

After suffering with poor care over the years, many fabulous specimen plants were hidden by overgrown material. With pruning, clearing and cleaning, these plants are now the focal point of this wonderful atrium.

Greenery Office Interiors Ltd adds this award to others collected in the past few years for the Sheraton Eau Claire Suites, Fluor Canada, the Hyatt Regency, and Catch roof top garden.

In addition to this award, owner, **Joanne Young** was recently featured in depth, in industry publication PLANET news. The article focused on Young's work in the community and the importance of involving your employees in community service.

Greenery Office Interiors Ltd. has been operating in Calgary since 1977. They specialize in Plant Rental, Sales and Maintenance and at this time of year, they are preparing for poinsettias, customized holiday décor as well as Christmas tree rentals for their corporate clients.
