For Immediate Release;

GREENERY OFFICE INTERIORS LTD WINS NATIONAL SAFETY AWARDS

Calgary, Alberta Nov.18, 2006

Greenery announced today it was recently awarded 3 safety awards in the Professional Landcare Network (PLANET) annual Safety Recognition Awards Program. It was recognized for its achievement at the recent PLANET Green Industry Conference awards banquet in Columbus, Ohio. The awards program is sponsored by CNA and Ariens/Gravely/Stens. PLANET's safety program reflects its dedication to creating and maintaining safe work environments in the green industry and is designed to reward green industry service providers who consistently demonstrate their commitment to safety.

"Safe work environments show our employees and clients that we care. We will continue to promote safe work habits by our employees on a daily basis because we recognize the importance of safety in the workplace. This recognition of our good safety record will put Greenery head and shoulders above the competition", comments Joanne Young, President of the company.

Greenery, a locally owned Interior landscaping firm will be entering its 30th year in business in Calgary next year. Although Greenery has an impressive track record with award winning contracts such as Sheraton Suites Calgary Eau Claire, The Hyatt Regency Hotel, Fluor Canada Building, the rooftop garden at Catch restaurant and the Nexen Atrium, Greenery is most proud of contracts such as Husky Energy which has been a client for 30 years.

Companies that enter PLANET's safety awards program are required to submit a copy of their Summary of Work-Related Injuries and Illnesses report and their year-end vehicle insurance claims summary report. These reports are used in determining award recipients. All award recipients are to be congratulated for their superior dedication to safety excellence.

PLANET represents approximately 4,400 green industry service provider companies and suppliers nationwide that specialize in lawn care, design/build/installation, interior landscaping, and landscape management. These firms and their employees represent more than 100,000 green industry professionals.
